HPBC 2019 Goal

- We will endeavor to cultivate a culture of evangelism in our church by partnering with key community organizations to advance the gospel within the context of Christian care.*
 - Specifically: We desire for our church body to partner with 3 key community organizations that demonstrate care for our community. It is our desire that these partnerships will provide channels through which our church members advance the gospel.
 - Procedure:
 - The pastors will begin evaluating various community organizations and choose 2-3 groups with which to form partnerships.
 - We will give community partners access to our congregation to present needs and recruit for various activities.

* This goal represents step 3 of 3. The first step in 2017 was to pray for at least 2 people who need Jesus and for an opportunity to present the gospel. Last year, our second step was to encourage our members to advance the gospel through individual community involvement. This year, our third step is for our church as a whole to partner with key community groups to advance the gospel within the context of Christian care. We desire for HPBC to use our resources in such a way to make an impact on our community for the cause of Christ and the good of those around us.

- We will demonstrate support for our community partners in our calendar planning, our financial gifts, and in the use of our facilities.
- We will encourage all members to be involved with our community partners, especially those who have desired community involvement but have not found an opportunity.
- We will encourage members to take advantage of evangelism training sessions as they are offered throughout the year so that each member is well-equipped to present the gospel as opportunities arise.
